

# OKLAHOMA PEAK PERFORMANCE

## 10'S 2023 CLUB SEASON INFORMATION

Oklahoma Peak Performance (OP2) provides an environment for the committed volleyball player to reach her peak performance in three specific areas:

### Sport Specific Development

OP2 has the privilege of providing our athletes with the highest level of instruction and training the nation has to offer. Our coaches have a variety of coaching experience at the local, state and national levels. OP2 coaches are committed to helping each team and player reach their optimum performance in the sport of volleyball. In addition, many of our coaches have years of experience on both sides of the college recruiting process and will assist players and parents who are interested in pursuing a collegiate volleyball career.

### Character Development

OP2 is dedicated to the growth and development of the whole person: body, mind and spirit. We place a great value in the areas of education, decision-making, morality, and spirituality. Biblical principles are the foundation of development in this area as we help athletes mature and navigate through life. OP2 invests intentional time helping each player optimize their role within the family, the team and as a contributing citizen.
